Capitol Hill Management Services Welcomes the Injured Workers Bar Association to the Center for Non Profit Development

Capitol Hill Management Services (CHMS) has announced the Injured Workers Bar Association (IWBA) as a Center for Non Profit Development client. IWBA is comprised of attorneys from throughout New York State who concentrate their practice in representation of injured workers, many practicing exclusively in the area of Workers' Compensation Law

CHMS will provide IWBA with a full range of association management services including administrative services, website management, strategic planning, event planning, communications and financial services.

According to the 2011 Annual Report of the New York State Workers Compensation Board (WBC), in 2011, the WBC held 266,046 hearings, more than any other state in the country to address issues in workers' compensation claims. According to the same report, 99,995 were still pending at the end of 2011. The IWBA strives to protect the interests of injured workers by actively participating in administrative policy decisions, by formulating and advocating an action agenda for change and by monitoring relevant legislative activity.

"We welcome the IWBA to the Center for Non Profit development and look forward to providing the necessary support services that will allow its volunteer leaders to focus on what's important to its members" said CHMS President, John Graziano, Jr.
